

Practical Challenge for QA Roles at ecoPortal

This document is a follow-up to the test cases planned in challenge 1.

The tests were carried out on **arstechnica.com**, a website where you can find stories (articles) related to technology.

Testing Scope:

The tests cover the home page, there are common use cases for regular users of this type of site.

Test Metrics:

Total No of Test Cases Planned: 11

Total No of Test Cases Executed: 11 (100%)

Total No of Passes Test Cases: 11 (100%)

Total No of Failed Test Cases: 0 (0%)

In this test session, 100% of the planned cases were executed. In all of them a positive result was obtained, only one comment in the ARSHP-02 test case with a possible improvement.

Test Performed:

Smoke tests were performed to ensure that the major functionalities on the home page are working fine.
